For clarity, a multi-year deal for YLC/YSC and/or ALC/ASC pricing structures is an irrevocable purchase of successive fixed term licenses. Notwithstanding anything to the contrary, if Customer terminates for convenience, such termination will take effect only at the expiration of the aggregate multi-year period of all the fixed term licenses, and Customer shall remain responsible for payment of all fees until the expiration of such aggregate multi-year period and not be entitled to any right of refund or credit. "Duration" and/or "Start/End Date" refer to the total number of successive fixed term licenses for 3DS Offerings contained herein. For example, if under a YLC and ALC pricing structure the Duration is "3" or if the Start/End date cover a period of 3 years, even if on separate lines (e.g. one year per line), it means that the order and the "then-current term" is for 3 successive years.

The price increase terms applicable to the multi-year deal can be found at 3DS Website Terms - <https://www.3ds.com/terms/multi-year-deals-special-terms-customer>
